**Coverdeck Systems®**

**WEATHERSTONE STRUCTURAL**

**PANEL** is a Maintenance free, functional solution to cover most outdoor surfaces. The structural integrity of this synthetic wood will span joist systems up to 25 inches. A variety of Pedestal systems can be used in conjunction with the panels elevating them and allowing them to be used over uneven surfaces. The panels are fastened with phillips head screws engineered to stand up to the most demanding applications

# WEATHERSTONE *Structural Panels*

These “**GREEN**” panels are our most earth friendly products to date.

Outstanding features of Weatherstone:

**No Maintenance:** No staining, painting or sanding.

**Fade Resistant:** Highest fade resistant panels available – they will maintain their color

**No Replacing:** Weatherstone will not crack or splinter. Our **50 Year limited warranty** ensures long term use!

Water does not penetrate Weatherstone making it perfect for a marine environment.

Won't easily Mold or Mildew like other composites, plus other substances will not permeate the plastic preventing staining.

No Waste – It's recycled!
