# Flex III Exterior

**Name:** Flex III Interior Tile

**Dimensions:** 12 1/8" x 12 1/8"

**Thickness:** 1/2"

**Tile Weight:** 0.75 lbs

# Flex III Exterior

**Flex III Exterior Tiles** offer a practical and functional solution to cover any floor. The tiles are an ideal solution for wet areas; the tiles sit ½" off the sub-floor and the design of the surface and the supporting legs promote instant drainage. Water passes over the honeycombed surface and drains itself under the tile providing a self-cleaning action. The unique snap-together design makes installation easy and fast, requiring no special tools or adhesives. Our unique expansion joints allow the tiles to expand and contract individually to help prevent buckling.

Coverdeck Systems® Flex III Exterior Tiles are made of Polypropylene, PP. The tiles are able to withstand extreme temperatures, are UV stabilized to help prevent fading, and are mildew and mold resistant. Flex Tiles are not affected by sea water or marine atmospheres making them a great choice for Boats and Docks. The easy-to-clean Flex Tiles are not damaged or stained by most chemicals including grease, oil, or petroleum-based solutions.

## **Applications:**

- Shower Areas
- Pool or Spa Area
- Commercial Kitchen
- Patio
- Decks
- Balconies
- Garages
- Docks
- Locker Rooms
- Laundry Rooms
- Sunrooms
